

# nUvo™

## TOWER

### VIRUS-TARGETED PORTABLE UVC AIR DISINFECTOR

The nUvo™ Tower is a free-standing, portable air disinfection device which uses enclosed high-power ultraviolet light (UVC) designed to destroy airborne pathogens including 99.9%+ of coronavirus.

#### KEY FEATURES AND BENEFITS

- Engineered for 99.9%+ effective and constant disinfection of airborne pathogens such as mold, bacteria, and viruses, including influenza and SARS-CoV-2 and its variants
- Strong top-down aerodynamic design performs 2 air changes per hour per 500 sq.ft. room
- Safe and reliable patent-pending UVC light blocker to effectively protect against UVC exposure
- No hassle, filter-free technology eliminates the need for filter changes and the uncertainty of their effectiveness
- UVC Lamp lasts 10,000 hours (approximately 3 years if used 8 hours per day)
- Powerful 4-speed fan operation
- nUvo™ Tower creates the nUvo™ Zone for your home and office - a portable disinfected zone for you, your family, your friends, and your co-workers

### PRODUCT SPECIFICATIONS

Direct plug to wall outlet with 8' cord

150 CFM fan - Up to 2 air changes per hour in 500 sq.ft. room

86 Watt UVC lamp with equivalent 35 Watt UVC (254nm) optical power output

25 Watt fan

Unit weight: 18.5 lbs.

4 fan speed settings

LED indicators for lamp replacement notification and diagnosis

Rubber anti-slide base feet

120 VAC, 50/60 Hz compatibility

10,000 hours rated UVC quartz lamp\* (1 year warranty)

1 year warranty on the unit

\*Quartz blocks the creation of harmful Ozone

PRODUCT SPECIFICATION

Product	SKU	Description
Room Unit	NUVO-AT-SP	Portable air disinfection tower, silver/purple

nUVo™ Tower is an important part of the UV™ by Energy Focus portfolio of advanced disinfection solutions that safely expose pathogens to high energy, deep ultra-violet rays (UVC), breaking their DNA and RNA strands and therefore deactivating and destroying bacteria, molds and viruses such as SARS CoV-2 and its variants.
